The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Eloise R. Page
Deputy Director, Intelligence Community Staff

15 AUG 1984

FROM: [REDACTED]
Executive Secretary

SUBJECT: CIPC Monthly Report--June-July 1984 [REDACTED]

1. The CIPC met on 25 June and 16 July respectively at 1530 hours. The primary agenda items were the CBW report, and a discussion and approval of Community initiatives in response to NSDD-138, "Combatting Terrorism." [REDACTED]

2. The next CIPC meeting is scheduled for 20 August at 1530 hours, at which time we anticipate that the Committee will formally approve the CBW Study. [REDACTED]

International Terrorism:

3. Some forty initiatives to improve the Intelligence Community's counterterrorism capabilities were recommended for the DCI's approval by the CIPC at its 16 July meeting. These recommendations were developed from some sixty separate initiatives prepared by NFIP Program Managers in response to NSDD-138, "Combatting Terrorism." [REDACTED]

DCI Terrorism Analyst Network (FLASHBOARD):

4. The network continues to expand. [REDACTED] The Air Force terminal at AFOSI headquarters, Bolling AFB, is now operational. Nine of the 11 organizations which originally requested terminals now have them in operation. Two remaining components, the Secret Service and the Marine Corps, are awaiting the installation of communication lines. [REDACTED]

~~TOP SECRET~~

Chemical/Biological Warfare (CBW):

5. At the suggestion of the NIO-at-Large, a CIPC Executive Review Panel will be established to monitor the implementation of the CBW recommendations as approved by the CIPC in June. In addition to the Chairman, CIPC and the NIO-at-Large, the panel will include a senior DoD member and the Chairman of the Interagency CBW Intelligence Committee (which is to provide a focal point for enhancing the exchange of CBW information). The CBW study is being revised to reflect these proposals in anticipation of a final review by the CIPC principals at the August meeting. [REDACTED]

International Narcotics:

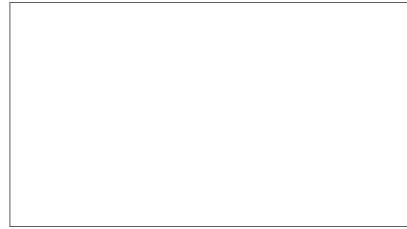

8. Community representatives have accepted drafting responsibility to provide you with a final report on 30 September on a number of outstanding narcotics issues. To minimize the workload, the Narcotics Working Group will prepare a series of short papers, 2-3 pages in length, on the ways and means needed to improve qualitatively the specific kinds of intelligence information needed to combat the narcotics problem. [REDACTED]

9. For example, State will solicit views from key narcotics producing trafficking countries and prepare a short assessment of the major narcotics program countries. Representatives from the Office of the Vice President will prepare a short paper on the intelligence needed to support the narcotics interdiction effort within the context of the National Narcotics Border Interdiction System (NNBIS). The A/NIO/Narcotics will address such issues as the extent to which estimative capabilities meet the requirements of the Community and ways and means to poll the Community for ideas in a more systematic manner. [REDACTED]

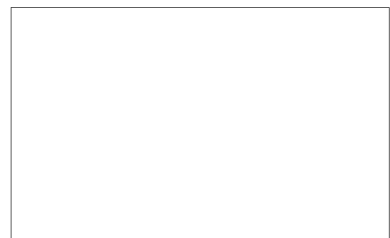

10. The Narcotics Study is being printed at the SECRET/NOFORN level and will be ready for distribution to the Community by 17 August. The Office of the Vice President/NNBIS plans to disseminate the S/NF version of the study to the directors of regional centers; the US Coast Guard will ensure that key district commanders will be provided copies; and the DIA intends to pouch the study to selected Defense Attaches in critical narcotics producing/trafficking countries.
